

Beloved,

Did you know that in order to enjoy the abundant life (John 10:10) that Jesus has paid for us to have you must combine the natural with the supernatural?

Too much of the time believers are going on only one or the other. The fact is, it takes both of them.

Ephesians 6:13-14 says “having done all (this would include all in the natural) to stand, stand (that’s the stance of faith, the spiritual part) therefore.”

If you are believing God for a job you must be out there making a job of turning in applications for a job!

If you are believing God for protection against Covid you should take the vaccine, if available, and then stand in faith, otherwise you have not done all it takes to receive that protection. On the other hand, if you are all worried about the vaccine and fearful that since you are not vaccinated you’re going to get Covid and die so that you start scheming to cheat and get it before anybody does, you are all in the natural and full of fear. The fear will attract Covid to you like a magnet and take you out! If you were believing God for a ticket to travel and you were not packed and ready to go on the day of departure, you would be unable to make it to the airport on time to catch the flight when the ticket arrived on that day one hour before departure!
