

Beloved,

Did you earn your salvation?

Did you earn your healing?

What makes you think you should have to earn your money?

It does not mean that you should not have a job or a business. You should. It means that you should expect your income to be larger than your paycheck!

Set your faith to and expect to receive money that you did not earn! You can never earn your way to the level of abundance God wants for you, but you can receive at that level!

Study (not just read) Proverbs 13:22b and call for your fair share every day! As you do, listen for a plan of action, then execute it!

I love you,

Pastor Shina.
